

Materiality Assessment Results

A materiality assessment is the process of asking our stakeholders to assess the most important environmental, social and governance (ESG) topics for Brisbane Airport Corporation (BAC). At BAC, our stakeholders are known as our 'Four Bosses', including employees, customers, shareholders, and the wider community.

What our Four Bosses told us

BAC is a **key piece of infrastructure in Southeast Queensland**, and we need to be forward thinking and plan for sustainable and responsible growth.

It is important for BAC to be recognised as a **leader in sustainability**.

Brisbane Airport plays a **key role in providing economic, social and cultural benefits to the community**.

What our four bosses told us is most important to them

Health, Safety and Wellbeing
